Everything a Practice Manager or Clinical Director needs to manage their Covid-19 vaccination programme

The Covid-19 Vaccination Management Platform provides PCN's with a resilient framework that accommodates all sites and the entire workforce. This will enable individual practices and the whole network to deliver the program in a way that suits their local health economies and populations best.

FEATURES

- ✔ Manage collaborative staff from across a network including Practices, Pharmacies and Community Care
- ✔ Interoperable with HR, clinical and payroll systems
- ✔ Instantly flex and change locations as required across dedicated sites, PCN, regions and care homes.
- ✔ Geolocation to support demand management planning
- ✔ Agency management process to complement staff and fill vacancies, build resilience and increase capacity
- ✔ Automated staff Covid-19 vaccination training and compliance
- ✔ Staff app to communicate, set availability, capture feedback and complete administration
- ✔ Staff health and wellbeing assessment and support
- ✔ Remote and 24-hour access with on-call and email and SMS notifications

95% of our users say our app is good or very good. But dont take it from us...

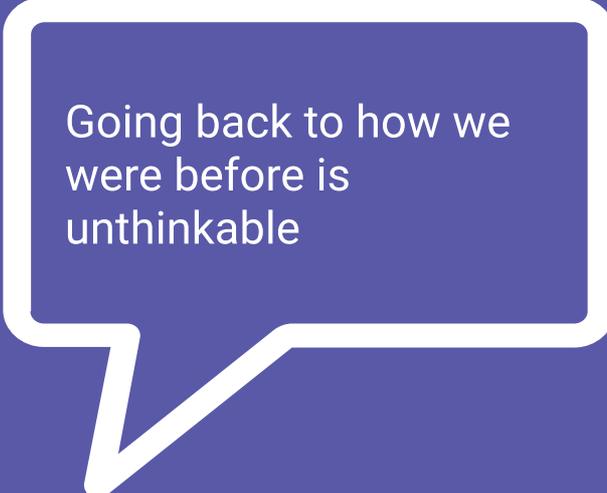

I love it. Its so easy to see whats happening and manage staff across my site

Senior Workforce
Coordinator, Private client

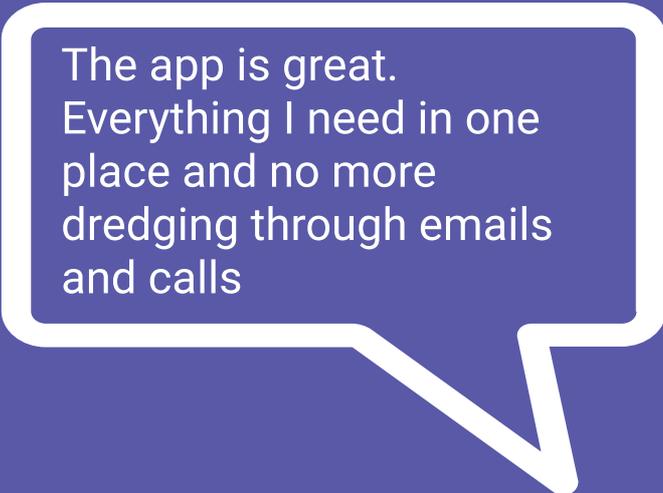

We are probably the only trust in the North that knows exactly what they're spending on temporary staffing

Finance Director, County Durham
Darlington NHS Foundation Trust

Going back to how we were before is unthinkable

Medical Director, Secondary Care
Foundation Trust

The app is great. Everything I need in one place and no more dredging through emails and calls

Practice Nurse, Avondale
Care Homes, Fife
